

RESEARCH OPPORTUNITY

Acupuncture Treatment for Individuals with Myasthenia Gravis

What is the goal of the study?

To examine the effect of acupuncture treatment on the quality of life and the activities of daily living in people with Myasthenia Gravis.

What is the cost?

You can participate in this study at no cost.
Your participation is completely voluntary.

What happens in the study?

You will be asked to:

- Undergo acupuncture treatment two times per week for 12 weeks
- Complete Quality of Life and Activities of Daily Living e-mail surveys

Where are study treatments?

HealthPartners Neuroscience Center

295 Phalen Boulevard,
St. Paul, MN 55130

and

Park Nicollet Specialty Center

3800 Park Nicollet Blvd.,
St. Louis Park, MN 55416.

How will the study benefit me?

There may or may not be direct benefits to you; however, the information from this study may benefit others by leading to better treatment for people with Myasthenia Gravis.

What are the risks?

All research studies, including this study, may involve risks. Side effects may include:

- Discomfort, soreness
- Mild bleeding
- Slight bruising
- Nausea
- Lightheadedness, fainting

You may be eligible if:

- You are between the ages of 18-80
- You have been diagnosed with Myasthenia Gravis
- You will not receive acupuncture outside of study, while enrolled
